The Learn4Life Mission

Learn4Life helps students who need options in education and an adult who helps them through the process. Our teachers take the time to understand each student, and then tailor his or her education to meet their specific needs. This is our proven model of personalized learning, flexibility, one-on-one attention and workforce readiness programs. Each step of the way, we work to remove all obstacles in the way of a student's high school diploma and life success. We offer more than a diploma. With career and life skills, we help prepare each student with courage and confidence for life beyond high school.

Professional Development for Teachers

The core of Learn4Life's professionals development program centers around its innovative educational model, which is anchored in strong teacher-student collaborative relationships, student and staff accountability, rigorous academics and flexible and adaptable instructional scheduling, and high teacher efficacy and agency. The internal professional learning team provides both individualized and standardized training and professional development, as explained in detail below. Learn4Life will collaborate and draw from external resources for individual and group professional development opportunities, including local, regional education service center(s). This will ensure Learn4Life with the quality preparation and teacher on-boarding, and on-going professional development to make certain our students' success in college, career, and/or military.

Teacher Workdays

The purpose of the teacher workday is to prepare the classroom learning environment for students. Learn4Life provides teachers with a standard for what all learning spaces should look like in order to maximize student achievement. During work days, teachers also engage in analyzing individual student progress, making parent contacts, and preparing to support individualized learning plans.

Teacher Workdays:

August 6, 2021

January 7, 2022

WHY

7:30 a.m. to 5:30 p.m.

Flexible Scheduling allows students who have adult responsibilities that would have typically posed as obstacles the opportunity to complete high school at their own pace without interrupting their daily life commitments. Multiple 4-hour tracks are available and individualized by student.
